

Our family has been very pleased with the "Do not Call List" in action. In our busy lives we only have a few minutes to sit together, have dinner, and converse in peace. We do not not to be hassled by telemarketers during this time. In addition, since we have Caller ID we wouldn't be picking up their calls anyway, so its a real pain to have the phone ringing incesantly and unnecessarily. Thank you for your attention in this matter.
